

Kanagawa Prefectural Yokohama Senior High School of International Studies
Super Global High School

Project Title: Strategic program to foster global leaders who can research and act on worldwide issues

Aim of the Project:

To provide, against the background of rapid globalization, a high school-level international education that enables students to acquire—in addition to interests in societal issues as well as in-depth cultural knowledge—the communication skills and problem-solving capabilities required for future global leaders who can take an active part on the world stage.

Research Theme: How to Promote Japan's Advantage Overseas.

---Searching for new global business opportunities and developing new international collaborative relationships---

Sub-themes

1. New strategic ideas for Global Business
2. New way to contribute to World Peace
3. Proposal for the solution of World Environmental Issues
